Facebook Sooner Model A Club

Dear Sooner Model A Club members,

Happy St. Patrick's Day. We are hoping that you can join us for the first parade of the year, St. Patrick's Day Parade, in Stockyards City on March 14th. We have lots of activities this month, and a lot more scheduled for the Spring and Summer, and we look forward to seeing you at some of them.

Our club meeting in January was cancelled because of the weather. The meeting in February was in the smaller room at the Will Rogers Garden Center. We had a few visitors and a lot of club members there, and most of us thought the smaller room made it a lot easier to talk to each other. Chuck was surprised that he ran out of coffee. He said he would bring more coffee in the future. It will be exciting to see what happens at the March meeting.

Don and Chuck are continuing to plan for the Spring Tour. They discovered there is an AACA Club in Enid, and their members will be visiting with us on our first night there, and we will have the opportunity to see their cars while we are in Enid for the Spring Tour. We hope you can join us. The schedule is in the Scuttlebutt, along with the information about how to register. The complete driving directions for the tour will be available in our meeting room at the hotel.

Gayle had to give up her position as Vice-President due to some health issues, and Don has agreed to fill the Vice-President position for the rest of this year. If you have any suggestions for activities or demonstrations, please let us know. We hope to see you somewhere along the Model A road.

Phil Wolfenbarger, President

### 2026 Meetings at the Will Rogers Garden Center

The monthly Club Meetings are scheduled for the *4th Sunday* of each month, except for April and December. In April, we are meeting at the Johnnie's in the Village on April 26th. This is the same location as the board meetings. The Christmas Party will be sometime in December.

The *fourth Sunday* of the month allowed us to have the best availability for the most number of meetings. *Our meeting place has changed to Room #1 at the Will Rogers Garden Center and the meeting day has changed to the 4th Sunday, but the meeting time remains at 2:00pm, now in Room #1 at the Will Rogers Garden Center.*

## Jim's Tech Tip

### Clutch Pedal Free Play

It is easy to forget to check the Clutch Pedal Clearance (or Free Play) now and then, but you really do need to check it. I press down gently on the pedal with just a couple of fingers, to judge how far down the pedal goes before you are pressing the throwout bearing against the clutch "fingers". If you do not have an inch of movement, follow the instructions below. A little extra free play will not hurt anything.

#### *Clutch Pedal Clearance*

The correct clearance or play for the clutch pedal is approximately 1". That is when the clutch pedal is depressed there should be about 1" movement in the pedal before it starts to disengage the clutch.

As the clutch facings wear this clearance or movement gradually grows less. Consequently it should occasionally be checked. Under no circumstances should the car be driven without clearance or play in the clutch pedal.

#### *Adjusting Clutch Pedal Clearance*

The adjustment is easily made by removing the clevis pin (see Fig. 4) and turning the release arm rod. Screwing the rod in decreases the clutch pedal play. Screwing the rod out increases the play. After making adjustment, be sure to replace clevis pin and cotter key.

Figure 4  
Clutch Pedal Adjustment

Forgetting to keep an inch or so of clutch pedal free play can lead to premature throwout bearing failure, because the bearing is spinning all the time where the pedal is pressing it into the clutch. We don't want that. So maybe check it every time you change the oil and adjust as required.
